TAMS JOURNAL

31st TAMS Assemblage Medal

VOLUME 30 NUMBER 5 OCTOBER 1990

Paul L. Koppenhaver

Is Buying:

- Tokens
- Medals
- U.S. Coins
- Foreign Coins
- U. S. Paper Money
- Early Americana
- Obsolete & Broken Bank Notes
- Foreign Paper Money
- Wristwatches
- Fountain Pens
- Collectibles

Both in individual lots and whole collections.

TAMS JOURNAL

Official Organ of the Token and Medal Society

TAMS JOURNAL ISSN 0039-8233

Published bimonthly for $15.00 per year for members (foreign $20.00) and $16.00 for non-members by the Token and Medal Society, Inc., P.O. Box 951988, Lake Mary, FL 32795-1988. Second class postage paid at Tecumseh and additional offices. Postmaster: please send address changes to TAMS Journal, P.O. Box 951988, Lake Mary, FL 32795-1988.

The *TAMS Journal* is the official publication of the Token and Medal Society Inc., an educational and non-profit organization devoted to furthering the exonumia field. Founded on November 19, 1960, at Detroit, Michigan, the *TAMS* was incorporated April 8, 1966, in the District of Columbia.

All Society members receive the *TAMS Journal* without cost beyond their $15.00 domestic and Canada ($20.00 foreign) annual dues, of which $14.50 is set aside to cover the subscription. Non-member subscriptions are $16.00 per year.

Entire contents — copyright 1990 by the Token and Medal Society Inc. Reproduction in whole or in part without specific written permission prohibited.

Official emblem designed by Robert A. Johnson. Cover design by Paul A. Cunningham.

The contents of articles published in the *TAMS Journal* and opinions expressed therein are those of the authors and do not necessarily represent the views of the Token and Medal Society, its editor or its officers.

Stop Me...

...If You've Heard This Before

This will serve as the format for the president's message. I rejected names like Paul's Prophesis and Cunningham's Corner and others I've seen, like Chet's Chatter and The View from the Top. If you've got a better one, share it with me!

The TAMS meetings were both routine and exciting. While nothing really unusual or earth-shattering occurred for TAMS, I was personally thrilled to be installed as President of TAMS for 1990 to 1992 (August, 1990 to August, 1992). I have contributed to and serve for the best interests of TAMS since 1976 and this, I hope, will be a memorable time.

If there is one issue that involves TAMS most significantly at this time, it would have to be that of financial well-being. TAMS has been figuratively bleeding for a number of years because income has not met expenses. There are reasons for this — inflation and increased costs, primarily in The Journal publication, books priced to make a modest profit, if sold, and membership growing too slowly, if at all.

We have already begun to attack the problem in these three areas. Journal costs have come down because of our increasing use of computers to not only enter data but to handle some layout and publishing also. The Board voted to raise the cost of TAMS books, to reflect the effect of inflation. Future TAMS books will probably also be priced marginally higher for these same reasons.

An increase in membership could do wonders for the TAMS balance sheet. Many Journal costs, for example, are fixed. The editor's and publisher's fees would be the same whether we have 1800 members or 3000. The printing costs would go down however. Now our overall Journal cost is about $1 per issue per member: with 300 more members, that cost would go down to about 85¢.

There are other ways to cut costs. A big item is the fees and stipends paid to the editor, publisher, treasurer, secretary and president (for convention expenses). Considering the amount of work required at these positions, it doesn't make sense to try to cut these fees. As president, and because I attend TAMS (ANA) conventions as a dealer anyway, I will not request convention expenses in 1991 or 1992, probably. A small savings.

Another area ripe for plucking, if not pruning altogether, is that of the TAMS medal programs. The interest in assemblage medals seems to be waning. While an order of several hundred silver medals was typical some years ago, 80 seemed more than sufficient this year. One thought is that by limiting the number of medals struck to those pre-subscribed, we'll at least break even and have no surplus to worry about selling next year. Make it pay for itself! As a matter of fact, restricting the program in this manner might just increase the demand for the medals in following years!

Another TAMS' medal program is the TAMS president's medal. A medal is designed and struck in several metals for the president and a small number of medals is made available for sale to the membership. While this is an attractive and appreciated gift for the president, I would be willing to terminate the program if it would help to keep TAMS in the black. As an alternative, an interested president could foot the bill himself, perhaps allowing a small number of medals to be pre-ordered, at cost, for collectors desiring a specimen.

If you have any comments regarding any of these topics or any TAMS business, for that matter, please don't fail to bring them to my attention or to any TAMS officer.

—Paul A. Cunningham

FROM THE BOOKSHELF

by Cheryl E. Maisch

It gives me great pleasure to announce that we have found a well qualified and enthusiastic candidate for the position of TAMS librarian. He is Peter Irion of Scotch Plains, New Jersey.

As I write this at the end of July, I am in the process of packing up the *many* volumes, shelving, and paper work, in preparation for transferring everything over to Peter. By the time you read this the transfer will have been completed, and everything should be settled at its new location. In the process of packing I am discovering a few "gems" and loose ends; consequently, I will have some listings in the next Journal – my last column.

The process of packing and transfer is a sad one for me. I have thoroughly enjoyed serving TAMS as librarian. Unfortunately, as previously mentioned, with a lot of travelling and many house guests, I no longer had time to do the job properly. I have enjoyed "meeting" so many members through the mail, while trying to fill their requests.

The support and patience of borrowers during the last fourteen years, through our many moves and a couple of surgeries, has been very much appreciated. I won't say goodby, as I hope to continue serving TAMS in some capacity; presently as an elected board member.

Requests to borrow books of for library information should be addressed to Peter Irion, P.O. Box 337, Scotch Plains, NJ 07076.

Book Prices Increase

In Board action at the TAMS meetings in Seattle, it was decided to raise the wholesale and retail prices of all TAMS books at all levels by 20%. The price changes will be effective January 1, 1991. Dealers and collectors are urged to stock up at old prices now!

In a related action, it was decided that buyers could combine titles for a better rate. For example, one could purchase six of each of two titles and receive them at the 12 copy rate. Questions and inquiries may be directed to the Secretary.

Publication Discounts
(Effective January 1, 1991)

Single copies (members) postpaid	20%
Three to 11 copies, same or mixed titles, plus shipping	30%
12-49 copies, same or mixed, plus shipping	40%
50 or more copies, same or mixed, plus shipping	50%

FOIL-COVERED PLASTIC: AN ALTERNATIVE FOR METALLIC MEDALS AND TOKENS

by Jerry Remick

Foil-covered plastic pieces, 33 and 38 millimeters in diameter, can provide an alternate and less expensive format for medals and tokens. The material, called gravoply, was developed in 1984 by Decalco of Sainte Foy, Quebec, Canada. It has been used by a number of Quebecers for personal medals and issues of wedding, and also for coin club medals. An issue of 200 pieces can be be made for less than $200. Profile portraits show up well and make nice designs for wedding or anniversary medals.

The obverse and reverse sides of a black plastic planchet are stamped separately by two different machines, each containing one of the dies. The foil-covered planchet is placed in one machine, and heat and pressure are then applied. The background part of the die, which is heated, binds the foil to the background part of the planchet. The design part of the die is not hot, so the metal foil doesn't stick to the planchet. The design is shown in black on the planchet.

The planchet is then placed by hand in the second machine and is properly aligned. The process outlined above is repeated to create the reverse design.

The following colors of metal foil are available: gold, silver, copper, red, green, and blue. The first three colors are recommended for medals, because they closely resemble the colors of numismatic items. Pieces can be manufactured with a different color on each side at no extra charge, if desired. Also, the manufacturer will fill an order with medals in more than one color on request, with no additional cost. Thus, an issuer can have medals in as many as six colors for the same price as a single-color order.

Prices in U.S. funds, excluding postage and die charges, start at $93 for one hundred 33mm medals. The per-piece cost for larger orders is somewhat less, depending on the size of the order. Die charges are $32 per side.

Collectors desiring additional information on gravoply medals may contact Decalco at 455 rue Mendel, Sainte Foy, P.Q., Canada G1X 4B9.

TAX TOKEN SOCIETY PUBLISHES NEWSLETTER

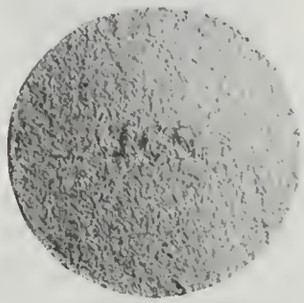
The April - June, 1990 issue (number 69) of the *ATTS Newsletter*, quarterly publication of the American Tax Token Society, has been published. It was announced that, due to the increased costs of producing the newsletter, it will be necessary to increase annual dues from $5.00 to $8.00 starting next year. Considering postage and printing costs, this is still a very modest dues.

An article by Merlin Malchorn describes a recently discovered large hoard of cardboard Oklahoma sales tax tokens. Illustrated are several of the off-center and double-printed error tokens found in the group. Another article by Malchorn discusses and illustrates foreign sales tax tokens/stamps.

Prices realized from a recent auction of tax tokens were published. High bid was $315.00, for a "trial strike or pattern piece: an MO-6 Missouri 5 Mills Zinc, size 16mm." This is one of only two specimens of this rarity known to exist.

Additional information about the American Tax Token Society may be obtained by writing the ATTS Business Office, 5150 NW Shasta, Corvallis, OR 97330.

LEATHER TOKEN ISSUED BY MD TAMS



Each member attending the 11th annual meeting of the Maryland Token and Medal Society, held on 19 May 1990, was presented a truly unusual keepsake of the event — a trade token made of leather. The obverse legend, in incuse letters, is MARYLAND TOKEN AND MEDAL SOCIETY / GOOD FOR / MAY $225 (denomination within six pointed star, with small letter H at bottom point) 1990 / IN TRADE / LEATHER TOKEN. The reverse of the 38mm piece is blank, except for a serial number printed in red.

Production of the token was limited to 200 pieces, including 50 in red leather and the remainder in a natural leather color. The red tokens were handed out to those members in attendance at the meeting, while the others were sent to members, along with their summer issue of the group's publication, *Maryland TAMS Journal*. The free token continues MD TAMS' tradition of issuing an exonumia souvenir for each annual meeting.

The leather tokens may be applied, at full face value, towards the purchase of *Maryland Merchant Tokens*. This 248 page book, which was awarded the Token and Medal Society's gold Mishler Cataloging Medal, was written by David E. Schenkman and published by MD TAMS. In view of its unusual composition and denomination, it is expected that very few, if any, of the tokens will be redeemed.

Collectors interested in joining the organization or obtaining additional information should write MD TAMS, P.O. Box 3273, Baltimore, MD 21228. Annual dues are $7.50, which includes a subscription to *Maryland TAMS Journal*. Those joining after 1 October need send only $3.75, which pays for membership through 31 March.

TAMS 31st ASSEMBLAGE MEDAL ISSUED

The Token and Medal Society's 1990 meeting was held in August, during the American Numismatic Association's annual convention at Seattle, Washington. To mark the event, TAMS continued a long-standing tradition by issuing

a limited edition medal.

The theme of this year's medal, depicted on its obverse, is Seattle's namesake, Chief Sealth, with Mt. Ranier in the background. Designer of the obverse was Dorothy C. Baber. As always, the medal's reverse depicts the TAMS logo.

The 39mm medals were struck in aluminum, bronze, oxidized bronze, and 1 oz. .999 pure silver. Prices, including shipping charges, are as follows (the numbers in parenthesis after the prices are mintage figures):

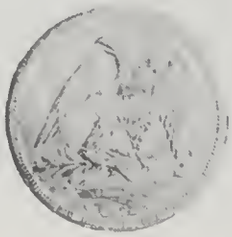
aluminum	$ 1.50 (170)
bronze	$ 2.50 (125)
oxidized bronze	$ 3.50 (125)
silver	$18.00 (80)
set of four	$20.50

While supplies last, medals may be ordered from TAMS Medal Chairman Al Baber, 611 Oakwood Way, El Cajon, CA 92021.

UNUSUAL FROSTBURG, MARYLAND LUMBER COMPANY TOKEN IDENTIFIED

by David E. Schenkman

One of the many rewards of token collecting is the satisfaction of attributing an early maverick token. This experience was mine recently when, quite by accident, I discovered the location of the illustrated token. Description is as follows:



obv: BEALL, BAUSCH & CO. / PAY TO BEARER / $2 (denomination incuse) / JOHNSON BROS.

rev: (eagle with wings spread)

brass, 29mm

The eagle reverse design identifies the token as a product of the well known Baltimore, Maryland firm, Dorman's Stencil and Stamp Works. This company, established by John F. Wesley Dorman in the late 1860s, was responsible for striking tokens for a large number of business establishments during the late nineteenth and early twentieth centuries. During the 1870s and 1880s Dorman utilized "stock" reverse dies which depicted eagles or Liberty heads on the tokens he manufactured for many merchants.

The subject token has been in my possession for several years. An attractive example of Dorman's early work, it is unusual in two respects: first, two merchants are mentioned in the legend; and second, the denomination is incuse, while the remaining inscription is in raised letters. While doing research for the book *Maryland Merchant Tokens*, I tried unsuccessfully to pinpoint the location of its issuers.

The mystery was solved quite by accident last week, while I was looking up another token in an 1882 Maryland business directory. Under the town of Frostburg, Beall, Bausch & Company was listed as owner of a general merchandise store. The Johnson Brothers firm was also listed, as a lumber company.

Further directory research revealed that the two firms were established during the 1870s, and it was most likely during this period that the token was struck. Beall, Bausch & Company remained in business until the 1890s. The lumber company continued to operate, and sometime between 1900 and 1905 its name was changed to J. Johnson and Son.

My business directories give no indication that there was any ownership connection between the two firms. So, how was the token used? It is logical to assume that it was issued by Johnson Brothers, probably as an advance against wages, and redeemable at Beall, Bausch & Company's general store. Such arrangements were frequently made between operations such as coal mines, lumber companies, or textile mills, and the nearby general store. The benefits to both businesses are obvious.

CALIFORNIA CLUB RELEASES MEDAL

To commemorate its 28th anniversary, the Heartland Coin Club of El Cajon, California, has issued a 39mm medal in copper, oxidized bronze, and silver. The central design of the obverse depicts a bucking bronco and rider, with BRONC BUSTING / LAKESIDE RODEO in small letters below. At the top, the inscription is HEARTLAND COIN CLUB, and at the bottom 28TH ANNIVERSARY – 1990.

The medal's reverse depicts the club's logo; a bust of Abraham Lincoln, with HEARTLAND COIN CLUB

above. To the left of the bust is FOUNDED 1962, and to the right, EL CAJON, / CALIFORNIA.

Copper specimens of the medal are available for $2.00, while the oxidized bronze version is priced at $2.50. The cost for a set of two medals is $4.00. Orders should be sent to Lloyd Lindemer, 10767 Jamacha Blvd., #28, Spring Valley, CA 92078.

FOREIGN TRANSPORTATION TOKENS CATALOGED

It has been twenty-three years since the publication of Kenneth E. Smith's catalog of world transportation tokens. Now, with the release of his new book, co-authored by Kirk S. Smith, vecturists (collectors of transportation tokens) have a completely revised reference.

Titled *Catalogue of World Horsecar, Horseomnibus, Streetcar, and Bus Transportation Tokens Except North America*, the Smiths' new book nearly doubles the number of listings in the original work. A complete description of each token's obverse and reverse is given, along with its size, shape, and composition. A value is assigned to each listing, and a rarity number is included for some of the scarcer pieces. Many of the tokens are illustrated.

The book's introductory section explains how to use the catalog, and gives a short history of horse omnibus, horsecar, streetcar, and bus tokens. Such things as prices and rarities, cut-outs, and shapes are discussed. To facilitate its usage, there is an index to the inscriptions found on tokens.

The catalog listings are arranged by country of issue. Lists of foreign words commonly found on foreign tokens, and their English translations, are included before the start of the listings of some European countries. Collectors interested in knowing the meanings of their tokens' inscriptions are sure to find this to be a helpful feature.

The cloth bound, 183 page catalog is priced at $15.00, plus $1.75 for shipping. Orders should be sent to Kenneth E. Smith, 328 Avenue F, Redondo Beach, CA 90277. The authors will be glad to autograph your copy on request.

WHO WAS J. POWERS JONES?

by Norman G. Peters, TAMS 4537

The idea of a railroad from the East to the West coasts had been envisioned as early as 1832. A Dr. Carver of Rochester, New York had even submitted the idea to Congress. During the 1850s and early 1860s many surveys, both private and government sponsored, were conducted to study the feasibility of a transcontinental railroad.

Finally, on 1 July 1862, President Lincoln signed the Pacific Railroad Act. The idea was to build two roads, one beginning at the West Coast and the other starting mid-continent at the terminus of an existing railroad, and connect the two at a location to be later determined.

Two companies were founded to build the railroads – the eastern company being named the Union Pacific, and the western company the Central Pacific Railroad. Work was slow in starting, but by mid-1864 construction was underway. The work in the West was more than a challenge, as the Sierra Nevada Mountains soon became an obstacle.

Construction was a nightmare. Tunnels had to be cut through solid rock, and road beds blasted from sheer mountain sides. It was soon discovered that Chinese workers, by now looking for work as the gold field work was coming to a close, were available. they were an eager, hard working group. By 1865 thousands were employed on the project.

Work in the East was going along at a faster pace. The worst obstacles were rivers to be bridged and the Plains Indians, who did not welcome the "Rails." The army put the Indians down in short order, and the road surged ever westward.

Both railroad companies had lucrative contracts with the government, and were awarded the following: they would be given ten miles of land in alternate sections on either side of its right of way for each mile of track laid (later to be sold as towns sprang up along the rails), and loans of $16,000 a mile on the plains and $48,000 a mile through the Sierras and Rockies.

Both companies were racing across the country, attempting to lay the most miles of rail and realize the greater amount of land grants and government bonds. In January, 1869, government surveyors chose Promontory Summit, 56 miles west of Ogden, Utah, as the site where the rails would meet.

Finally, on 10 May 1869, the two roads were a mere 56 feet apart. A celebration was in order. Workers placed the final rails and five ceremonial spikes. Four silver spikes from the states of Nevada, Montana, Arizona, and Idaho, plus the California golden spike, were driven by dignitaries, and engines from the two lines moved up to touch "cow catchers." The East and West met!

This event was attended by some 1500 persons, a large number for such a remote location. Surely the J. Powers Jones mentioned on the illustrated souvenir piece, which is engraved on an 1800 U.S. silver dollar, must have been in attendance. Who was he? This collector has been unable to locate his name in any books. Was he a politician, railroad executive, section boss, or perhaps just an ordinary railroad worker?

The silver dollar is engraved with the following inscription: FROM OCEAN TO OCEAN / J POWERS JONES / PROMONTORY / MAY 10th 1869 / LAST RAIL LAID / P.R. RDS. I am sure it must have been fairly expensive to engrave the coin, and a dollar in 1869 was just about a day's pay, as the rail workers were paid $35 a month for 12 hour days. Whoever he may have been, he created a very interesting souvenir of a most important event in the development of the Western United States.

Baseball Scenes Depicted on Early Medals

Two early medals depicting baseball scenes are among the many rarities in the collection of internationally known sportscaster Chris Schenkel, to be sold at auction on 12-14 November 1990 by Auctions by Bowers and Merena, Inc. The sale will be held in New York City. According to the catalogers, the baseball scenes on the medals have never before been noted in a numismatic reference.

The two Indian peace medals, one dated 1857 and issued under the administration of James Buchanan, and the other dated 1862 and issued under Abraham Lincoln, both depict a scene of that favorite American game, baseball. They show a youth holding a bat over his left shoulder, with a female catcher (his mother?) behind him. The ball is being pitched underhand by an adult male, with what appears to be a fielder in the distance. There is no indication of stakes or bases, nor is there a drawn field, so the intent may have been to depict something like a "sand-lot" game.

Baseball was very popular in the years leading up to the Civil War, but faded thereafter. In 1845 the first baseball club, per se (the Knickerbocker Baseball Club), was formed. The rules of the game were formulated about this time, and the diamond shape of the field was decided upon.

The two pieces are part of a large collection of Indian peace medals formed over a long period of time by Chris Schenkel. Also included in the sale are thousands of other medals, coins, currency items, and related items. The cost of the profusely illustrated "Grand Format" catalog is $20 postpaid. Or, a one year subscription to the firm's catalogs, including the Chris Schenkel sale, may be had for $69. Orders or inquiries should be directed to Auctions by Bowers and Merena, Inc., Box 1224, Wolfeboro, NH 03894. Those desiring to order by credit card may call the firm toll free at 1-800-222-5993.

MORE ON THE STONE & BALL COUNTERSTAMPS

Reprinted below is an interesting article from the 27 June 1897 issue of *The Syracuse Herald*. It was submitted by D. Albert Soeffing, a researcher and author on the subject of nineteenth century American silver, as a follow-up to Gregory Brunk's article on counterstamped coins published in the June, 1990 issue of the *TAMS Journal*. Mr. Soeffing comments about Stone and Ball as follows:

"Contrary to the popular literature on silver marks, Stone and Ball were not silversmiths. As a general rule, much of the silverware of the 19th century is stamped with the retailer's mark. This practice was known as backstamping or store stamping. The practice has caused no end of confusion in identifying the actual manufacturers of 19th century silver. In terms of silverware, Stone and Ball only sold it. They were trained jewelers, however, and repaired clocks and watches. The firm had the contract for keeping the school clocks in Syracuse in repair and also erected the first illuminated clock in Syracuse in front of their store.

"Around the year 1867, the firm of Stone & Ball was dissolved, Ball continuing to run the business alone. He continued doing so until 1903."

****

QUARTERS RETURN

HOW COINS SENT FROM SYRACUSE HAVE TRAVELED.

NOW COME BACK LIKE THE CAT

SOME HAVE KNOCKED ABOUT NEARLY FORTY-FOUR YEARS.

One of the Oldest Business Men of this City Tells How He and His Partner Adopted a Novel Advertising Scheme.

There are many novel schemes for advertising, but few efforts are rewarded by direct results that can be traced through nearly half a century. In 1853 two young men, Calvin S. Ball and S. H. Stone, began business as jewelers in the old savings bank building. They succeeded the firm of Norton & Hotchkiss. During the first year of their partnership the young merchants conceived the original idea of perpetuating their name by stamping it upon the coin of the realm. Accordingly every quarter that came into their possession was stamped with the inscription:

STONE & BALL,
SYRACUSE,
N.Y.

This coin with its inscribed substitute for "In God We Trust," was then replaced in the cash drawer and paid out again to customers.

None but 25-cent pieces were stamped and the work was all done during the first two years of the partnership; but for forty-four years these quarters have been heard from in many unique and unexpected ways.

Immediately upon the breaking out of the war most of them disappeared and it is the opinion of Mr. Ball that they were hidden away down South; and not until about 1880 did they begin to make their reappearance. He now has about $10 worth of stamped quarters that have been returned to him by both acquaintances and strangers from all parts of the country. A great many letters are also received, all of which he answers and supplies whatever information is asked.

"We used to send money," said he, "in return for the quarters, but so many swindlers got into it that we had to stop. I have reason to think that one fellow wrote us four different times requesting us to send money in exchange for his quarter. Each time he used a different name and the letter was sent from a different place. We sent the money several times, but never got the quarter.

Often I meet people in the street who hand me one of our old coins. It is easy for people to find us, as I believe that I am the only merchant, excepting S. I. Ormsbee, who is still carrying on the book and paper business, who has continued in the same business in this city during the forty-four years without change."

The Letters Still Come.

Extracts from a few of the letters which have come directed to Stone & Ball will show the variety.

From Los Angeles, Cal., a wholesale grocer writes: "I have a silver 1854 25-cent piece stamped with your name and address. It has been carried quite a ling time by a man who has traveled the world over and it is for sale as he needs money. Do you want it? How much can you give him for it?"

A merchant in Waterloo, Wis., wrote: "I have in my possession a 25-cent piece dated 1853 with your business stamp. Please let me know what business you are in and when you stamped the coin. I am a collector of coins and relics."

A Harrison, Ark., man wrote: "I have in my possession a 25-cent piece that has your name and address on it. Would you be kind enough to let me know when you put it there, if

you know? The piece is so old and worn that the date is gone, although your name and address are still plain."

As recently as the 9th of the present month the following came from a damask manufacturer of Frankfort, Pa.: "While looking over some change I found a quarter of a dollar with your name on. I thought you would like to have it returned. If so, let me know."

All the letters from which the foregoing extracts were made have been received within the last thirteen months by Mr. Ball.

RARE GOLD COUNTERSTAMPS SURFACE (LITERALLY!)

by David E. Schenkman

Articles about shipwrecks have always interested me. Therefore, it is not surprising that the illustration on page 1065 of the July, 1990 *The Numismatist* caught my eye as I scanned through the issue. It was of a three-masted sidewheeler, and the article, from the prolific pen of Walter Breen, was titled "The S.S. *Central America*: Tragedy and Treasure."

Breen's article details the last voyage of the ship, and her sinking in a hurricane off Hatteras, North Carolina, on 12 September 1857. More than three hundred lives were lost, along with the three tons of gold on board the vessel. Much of this numismatic treasure has now been recovered, thanks to modern salvage technology.

Of special significance to exonumists are two of the coins illustrated by Breen. One is an 1855-S twenty dollar gold piece with the following counterstamp on its reverse: J. L. POLHEMUS / DRUGGIST / 190 J. ST. COR. 7TH / SACRAMENTO CAL. The other is an 1852 Wass Molitor & Co. ten dollar piece, counterstamped W. W. LIGHT / DENTIST. Light was also located in Sacramento.

Merchant counterstamps on gold coins are excessively rare. As pointed out by Gregory G. Brunk in his recent *TAMS Journal* article, a grand total of three pieces were previously known to exist. One of these, an issue of Stone and Ball, a Syracuse, New York jewelry establishment, is on an 1854 five dollar coin. The others include a J. L. Polhemus, Druggist, on an 1857 twenty dollar coin; and a W. W. Light, Dentist, on a N. Moffat & Co. half eagle.

What conclusion can we draw from the newly discovered gold counterstamps? Aside from the fact that it marks a dramatic increase in the known population of merchant counterstamps on gold coins, it suggests the likelihood that the practice of counterstamping gold coins was much more common than previously thought. Otherwise, it would seem an incredible coincidence that examples of *both* the known California counterstamps were among the gold coins found on the S.S. *Central America*.

NEW BOOK CATALOGS BIMETALLIC TOKENS

Bimetallic trade tokens are, essentially, a product of the twentieth century. Although their manufacture was inaugurated during the late 1890s, the vast majority were struck between 1900 and the 1930s. As a group they are the most distinctive trade tokens to circulate during that era.

Most bimetallic tokens were struck on round planchets, with brass outer rings and round aluminum centers. However, a few examples exist with aluminum outer rings and brass centers, a reversal of the normal combination. Some tokens have center sections which are square or in the shape of initials, stars, crescents, or other designs. Planchet shapes including hexagonal, octagonal, oval, scalloped, and clover leaf are among those to be found.

Within the covers of a new reference by David E. Schenkman will be found listings of more than 1,600 bimetallic trade tokens, issued by merchants in 43 states plus Indian Territory. *Bimetallic Trade Tokens of the United States* is printed in large format, with a cloth binding. The comprehensive introductory section to the illustrated, 163 page book includes a wealth of information about the tokens and their manufacturers. The catalog listings are arranged in alphabetical order, by merchant name, and there is a cross-reference by city and state of issue, a price guide, and bibliography.

Retail price of the book is $40.00. *Bimetallic Trade Tokens of the United States* may be ordered from Jade House Publications, P.O. Box 265, Bryantown, MD 20617. Mail orders should include $2.00 shipping charges, and Maryland residents must add state sales tax.

FOR COLLECTORS OF GAMBLING EXONUMIA

Members of The Casino Chip and Gaming Token Collectors Club have received the Spring, 1990 issue of the group's quarterly publication, *Casino Chip and Token News*. Edited by Archie A. Black, the 34 page illustrated newsletter features a variety of articles pertaining to this popular collecting specialty. Also included in the issue is club news and announcements of future shows. Members' advertisements, offering a large variety of tokens and chips for sale or trade, round out the publication.

The organization has enjoyed rapid growth since its formation in 1987, and now has a membership of over three hundred collectors. The annual dues of $10.00 include a subscription to the newsletter. TAMS members interested in additional information may obtain a brochure and membership application by writing the group's secretary: Michael Knapp, 5410 Banbury Drive, Worthington, OH 43235.

MAVERICKS

A new format for listing maverick attributions was introduced in the last issue of the TAMS Journal. The response to it was all positive, especially the listing of the reference(s) used for attribution. Most collectors are interested in the historical aspect of tokens, so this column will attempt to list only attributions which are supported in reference sources or appear to be realistic.

Thanks to the TAMS Members who have put forth the effort to research mavericks and share their results with the rest of us. I am very much impressed by some of the work which is going on in the research areas of reading newspapers, county commissioners minutes, and gazetteers, visiting "old timers," computerizing name lists, etc.

Good detectives consider all information when solving a mystery. The same should be done when attributing a maverick. If the token has a name and a street address, a Dun and Bradstreet listing alone would not attribute the piece. Rather, a verification should be made on the street adress; does the street name exist in the suspect town? The Postal ZIP Code Directory, available at most libraries and Post Offices, can be used for this. Street names do change, though.

BANJO STUFF WANTED: Tokens, medals, pinbacks, watch fobs, trade cards, etc. mentioning or depicting banjos. Also real banjos. David Schenkman, Box 366, Bryantown, MD 20617.

TAMS Slide Programs

TAMS now has five slide programs for free loan for TAMS members. Each program is shipped in a Kodak "carousel" with the slides in place, along with a typed narrative. Several programs also include a taped (uncued) narrative.

Programs include "The Case of the Misplaced Soda Token," a general token and medal program (heavy in Civil War), Hard Times Tokens, Civil War storecards and Civil War patriotics. It is suggested that the borrower arrange to have a Kodak Carousel projector before requesting any of these programs.

TAMS also has a repeating program and self-contained Caramate projector especially designed for use at coin or collectible shows.

When returning any program, at borrower's expense, the member is requested to enclose a check for the original shipping charge. Inquiries and requests (please write at least three weeks prior to scheduled showing including your street address) may be sent to:

Robert Doyle
2070 Little Neck Rd.
Clearwater, FL 34615-1339

Medallic Portraits of

Adolf Hitler

by R.W. Colbert and William D. Hyder

Medallic Portraits of Adolf Hitler by Colbert and Hyder lists all of the known issues of medals and tokens, pinbacks, plaques, patterns and fantasy pieces ever issued.

Included in this 160 page 6"x9" book are 233 listings and nearly 400 quality half-tones. Each of the medallic portraits listed has been assigned a catalog number and such pertinent information as obverse/reverse description and physical detail information is given.

An excellent biographical sketch familiarizes readers with Hitler's life from his early years as a struggling Vienna postcard artist, to his rise as an infamous political figure.

Medallic Portraits of Adolf Hitler, hardbound in black cloth and stamped in gold foil, is available to TAMS members for $11.25. That's a savings of $2.75 from the regular retail price of $14.00.

Dealer inquires are invited.

INFORMATION FOR ADVERTISERS

Advertising Restrictions

All advertisers must subscribe to the TAMS code of ethical standards. The editor is vested with the right to reject any offered advertising which he feels is not in keeping with the best objectives of TAMS. All advertisers must supply their own cuts or art work, unless other arrangements are made. All ads are priced on a CASH IN ADVANCE basis. Further information regarding advertising is available by writing to the editor.

Classified Advertising

Classified ads, up to a maximum limitation of 25 words, are free to all members. Only one free ad may be submitted by each member per issue. All free ads must be re-submitted each issue...no run 'til further notice ads allowed. Ads larger than 25 words are also accepted, providing the additional words are remitted for at the standing rate of 10-cents per word, per insertion.

Mail Bid Ads

It is recommended that closing dates in mail ads be set six weeks following the listed issue date in which it is to be inserted. While the Token and Medal Society endeavors to place issues in the hands of its members no later than two or three weeks following the issue date, it assumes no responsibility to do so. All mail bids must include any rules that apply to the sale being held. The term "usual rules" is not acceptable.

Advertising Rates

		CONTRACT RATES	
SIZE	1 ISSUE	3 ISSUES	6 ISSUES
1 Page	$75.00	$202.00	$383.25
1/2 Page	$40.75	$112.00	$209.75
1/4 Page	$24.00	$62.50	$122.00
1/8 Page	$13.00	$34.50	$66.25

The above rates apply only when the same advertisement is run for the length of the contract. If ad copy is changed during a contract, an additional charge will be made.

The rate for advertisements placed on the outside back cover and inside back and front covers is $80.00 per issue on a contract basis, subject to prior arrangement.

Color

Second color available at $50.00 per ad.

Publication Deadlines

Ad Copy to Editor	Issue Date
December 1	February 1
February 1	April 1
April 1	June 1
June 1	August 1
August 1	October 1
October 1	December 1

The editor cannot guarantee insertion of any editorial contributions or advertising copy received after the deadlines indicated, nor can he guarantee the accuracy of such items.

PLEASE. . .

When you move, send the Secretary your change of address as soon as possible. Journals sent to old addresses are expensive — we must pay to have them returned, and then spend a minimum of 88¢ to mail them to the members' current addresses. This becomes quite expensive when we have at least a dozen or more for each issue!

WANTED: ITALIAN WWII medals; also old cigarette and gum cards before 1950, tobacco tins before 1945. Jerry Lorentz, HCR-69, Box 44, Isle, MN 56342. 1-612-676-3938.

CODE OF ETHICS
OF THE
TOKEN AND MEDAL SOCIETY

Membership in the Token and Medal Society is a privilege extended to those who subscribe to the purposes of the Society and who meet the other prerequisites of membership.

The Code of Ethics has been duly adopted by the Board of Governors of the Society to serve as a standard of conduct to which members should aspire. A breach of ethics by any member reflects, directly or indirectly, upon other members, the Society and upon the sincerity of our purpose. Such a breach is therefore prejudicial to the welfare of the Token and Medal Society and may be cause for disciplinary action by the Board of Governors.

Membership in the Token and Medal Society carries with it the commitment:

1. To support and be governed by the By-laws of the Token and Medal Society and such amendments, resolutions and policies as may be established.
2. To abide by all federal, state and local laws relating to numismatics and to tokens and medals in particular.
3. To conduct oneself so as to bring no reproach or discredit to the Token and Medal Society or to impair the prestige of membership therein, or the collecting of tokens and medals.
4. To abstain from buying or selling tokens, medals, or other numismatic and hobby material of which the ownership is questionable, and to report promptly to the proper law enforcement agencies information on suspected stolen material.
5. To promote the education of collectors and students of tokens and medals and a fraternal relationship among them.
6. To conduct transactions in tokens and medals fairly, with integrity that is responsive to legal requirements and to the highest ethical standards.

ALASKA TOKENS

by Ronald J. Benice

6 x 9; 208 PAGES
NEARLY 600 ILLUSTRATIONS;
HARD FABRIC BINDING
$20.00 MEMBERS

This reference provides collectors with the most comprehensive and educational study available of Alaska's private issue monetary mediums which circulated prior to the achievement of statehood in 1959. It encompasses all known metallic issues, paper chits and related items.

Included is appropriate historical annotations with each listing, frequently featuring photographs of the actual places of business or illustrations of advertisements which remain as records of the existence of the issuers. All listings are arranged alphabetically by the towns of issue, with catalog numbers being assigned to each issue. Nearly 600 photos enhance the text.

IOWA TRADE TOKENS

by Lewis K. Ferguson

Published by
Token and Medal Society

From Ackley to Zearing all known examples — over 7500 — of Iowa trade tokens are cataloged in this long awaited, up-dated edition. Lewis K. Ferguson the author, is considered to be the authority on this subject, having produced the first edition, Trade Tokens of Iowa, in 1972. Since that time, thousands of new tokens have surfaced, which necessitated an increase in size from 394 pages to 520!

The introduction gives a brief history of the important role the token played in our economic society. Also explained is the easy-to-use cataloging system, plus a rarity rating which is an important factor when determining value. This 6x9 volume is casebound and has the title stamped in gold on the front cover as well as the spine.

A special discount is being offered to TAMS members

MEMBER PRICE $20.00; NON-MEMBERS $25.00
DEALER PRICE $17.50, 3-11; $15.00, 12-49; $12.50, 50 +

Counterstamps and Civil War "Dog Tags" Wanted!

FOR MY PERSONAL COLLECTION I am desireous of obtaining counterstamped United States large cents 1793-1857 stamped with Washington-Lafayette medal dies (as per the above illustration), political symbols and slogans (such as VOTE THE LAND FREE), designs, merchant's names, silversmith's marks, prepared punch counterstamps, etc. — in fact, marked with just about anything except stray letters and numerals. I am willing to pay **considerably more than Brunk valuations** for most anything I can use. I have been a serious collector of counterstamped large cents since 1955 and have bought many thousands of pieces from TAMS members such as yourself. As noted, I am not looking for bargains and will pay full retail — "the going price" or more — for anything I can use. As it is an unusual occasion when two counterstamped large cents are alike (I also collect them by dates within a given counterstamp variety), this means that if you have something which I need, the chances are excellent that I will buy it from you. For example, among DR. G. G. WILKINS counterstamps I can use just about anything on large cents dated before 1850 and on small cents dated after 1864 (for Wilkins I collect not only large cents but his counterstamps on other denominations and series as well; the same goes for DR. SHATTUCK'S WATER CURE on any and all coin denominations, and USE G. G. G., etc., and VOTE THE LAND FREE, and a few other specialties).

NEW HAMPSHIRE CIVIL WAR "DOG TAGS" have been another specialty of mine for many years, and a number of dealers automatically send me anything they find. I don't recall ever turning down a single offer! Briefly, these are tokens of the Civil War era with the reverses stamped with the name and location of a soldier and volunteer, from New Hampshire. In general I have been paying from $75 to $125 each for these — to give you an idea of what to charge me if you aren't a dealer! I am endeavoring to acquire at least one example from each and every New Hampshire town, and as there are countless New Hampshire communities not represented in my collection, the field is wide open.

SEND ME A SHIPMENT! You can either price your counterstamped large cents (and other counterstamped coins) and New Hampshire Civil War "dog tags" and send them to me on approval, or I would be happy to make an offer. If my offer is not accepted, the items will be returned to you postpaid and insured. Either way, I look forward to hearing from you!
